

## Introduction to Innotech Security

### ABOUT US

Innotech Security is a leading manufacturer of high end security equipment, specializing in CCTV and digital video recording technology. For the past several years Innotech Security has focused on designing and manufacturing several proprietary lines of video equipment, including our newest line of "True" CAT5 cameras feature our patent pending Smart Control technology.

### Why Use Innotech Products

#### Unique Proprietary Designs

Innotech Security has designed several unique technologies. Some of these include our patent pending Smart Control™, CAT5 Solution, and Intelli-FLEX™ line. These technologies are bringing Innotech Security to the forefront in CCTV engineering and design. Innotech Security is constantly researching and designing new upgrades and technologies which will enhance its products and the way they are used.

#### Custom Engineering Design

Innotech Security prides itself in its ability to work with clients that need custom design and equipment for specific applications. Innotech Security's engineers work with clients to design, develop and manufacture custom solutions that will meet their needs. This is a service few if any other manufacturer can provide without the need for ordering exorbitant manufacturing quantities.

Innotech Security has been providing these services for some time to local, state, federal government and large corporate clients, now Innotech Security's complete unique lines, proprietary designs and designing services are available to all within the CCTV industry. Simply contact our Sales Office and speak to one of our experts for a complete catalog, or to schedule an appointment for a designing consultation. Our team is here to ensure you get the best quality and great prices.
